 Transversal competencies

For more than 35 years, we have been bringing our know-how in terms of high precision machining to various major players in the space and electronics fields. Relationships of trust and close cooperation have been built with all our partners.

SAP Micromécanique offers its expertise as a machinist with the same commitment: to offer the best technical solutions for the production of increasingly complex and precise products.

COMPETENCIES & CAPABILITIES

- The Space domain
- Hyper frequency,
- The very high precision
- Assembly tooling
- Laser reflector supports (laser Tracker)
- Work design
- Mechanical calculation
- Drafting and documentation (instructions for use, risk analysis,)
- Industrial design

We have been ISO 9001:2015 certified since May 2018.
